Scheduled Outage

Outage Schedule

Start: Sunday, November 8, at 12:00 AM (midnight)
End: Sunday, November 8, at 6:00 AM

This outage is weather dependent.

Why the Outage Is Needed

The Tennessee Valley Authority (TVA) has requested a scheduled outage for the weekend of November 7 and 8. TVA needs the outage to install new conductor along 2 routes of the 161-kilovolt (kV) transmission system.

Who Will Be Without Power

The Bolivar Energy Authority (BEA) consumers scheduled to be without power are in these service areas:

Toone Substation Service Area

All BEA consumers north of the Hatchie River to the Madison County line. Areas included:

- Toone
- Cloverport
- Silerton
- Highway 18 North
- Highway 125 North

Powell Chapel Substation Service Area

All BEA consumers east of the Hatchie River to the McNairy County line. Areas included:

- Hornsby
- North of Hornsby
- Powell Chapel Road area

City of Bolivar Service Area

Some consumers will have an outage, while others can be served from other substations. Areas expected to be without power:

- Downtown Bolivar
- Stevens Road and Country Club area
- Streets near BCHS and BES
- East Bolivar area

This is not an all-inclusive list. It shows general areas only.

What BEA Is Doing

BEA personnel will work during the outage on maintenance work and line retirement work. This work will take place:

- At substations and In town along Highway 64 near TSC

Thank you for your patience and understanding.
